

User Guide for ICAF

This is the user guide for the Conference Management Tool for "International Conference on Application Frameworks" also known as ICAF

Landing page

When a guest or a registered user visits the website this page will be rendered. All the necessary information about the conference will be displayed at this page.

User Registration

When an unregistered user gets log into the Icaf, then they can view only the home page.

When a user is new to Icaf, they have to fill out the Registration form selecting their role.(Editor/Reviewer/Admin)

Email

This field is required!

Phone Number

This field is required!

Address

This field is required!

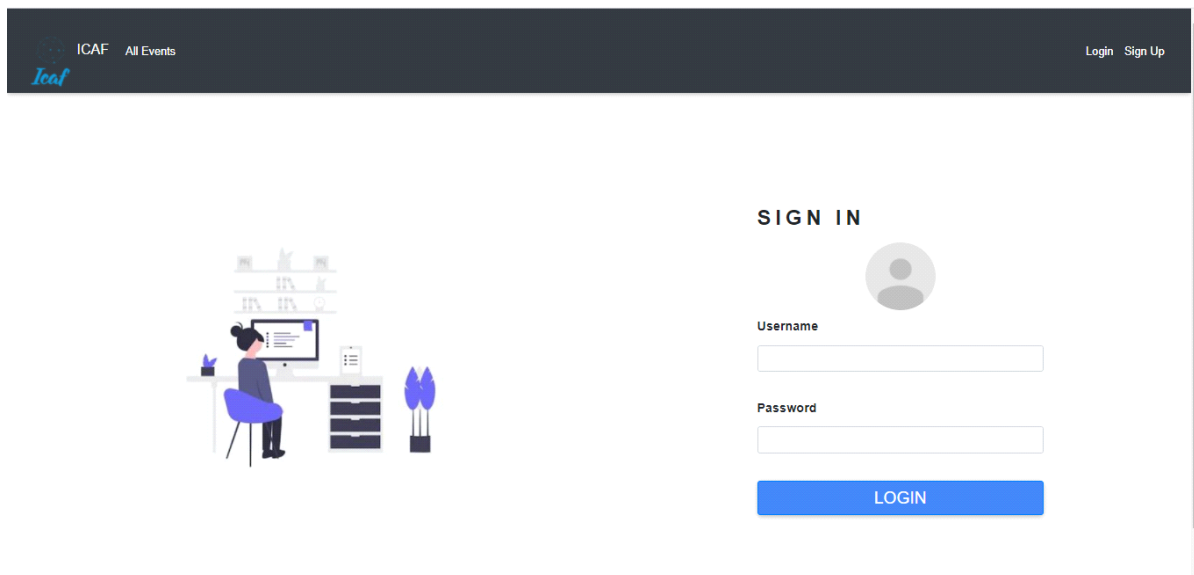

After filling out all the fields obeying above validations then the data will be checked with the database and if the data entered are unique (Username), then the user will see a alert stating “user was registered successfully”

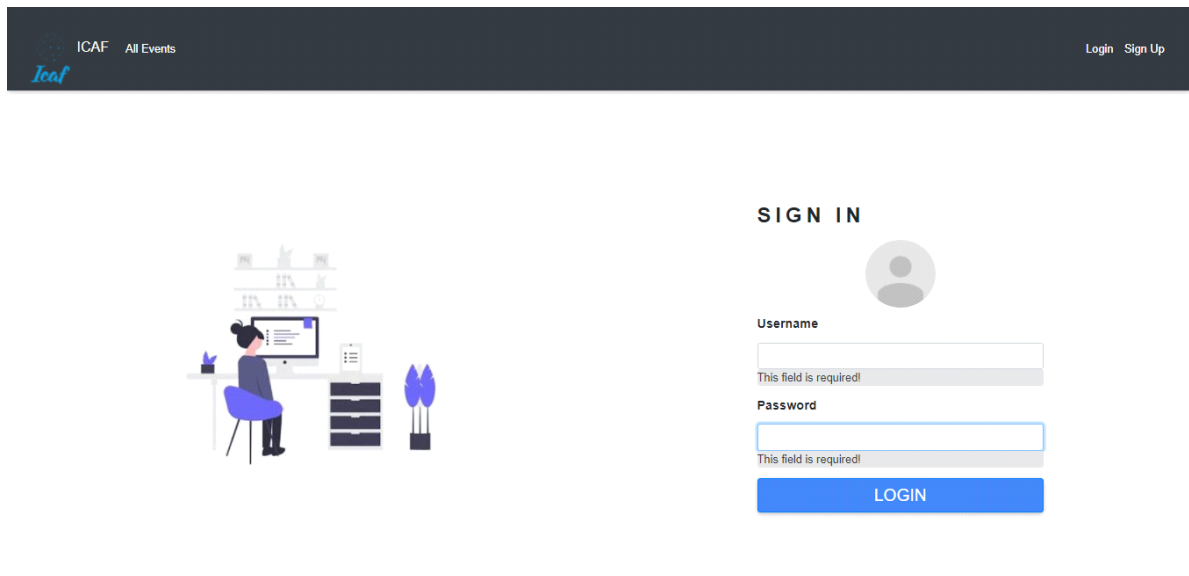

And as above, if the same username or email exists in the database, then it will display a message, "Username already exists" or "Email already exists" depending on the condition.

User Login

When a user (admin/editor or a reviewer) has an account he/she must fill out the login form to view their profile.

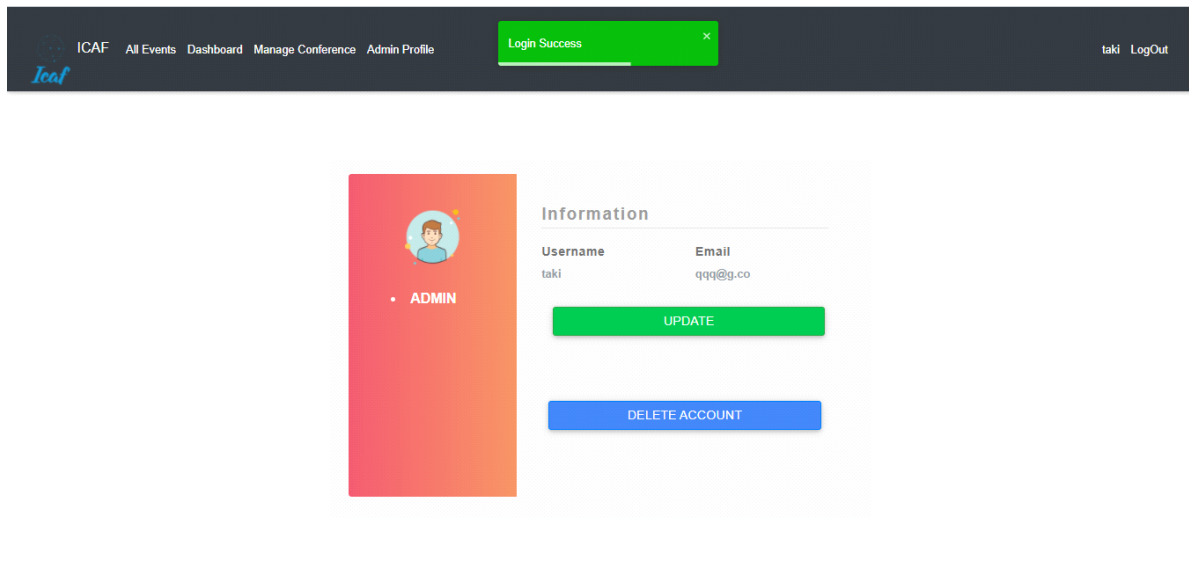

If any of the field is kept empty, then it will display as follow.

After a successful login it will display a toaster message saying, “Login Successful”.

And after a successful Login, the user can view their specific pages(Dashboard, Manage Conference etc..) depen

As above,If a user enters an invalid username, then it will display a message “User Not Found”.

And if the user enters a wrong password, then it will display a message “Invalid Password”.

User Logout

User can logout from Icaf at anytime they wih by clicking the “Logout” option

Functionalities for a Registered User.

Register for events.

A registered user will be able to submit Research Papers or submit workshop requests by filling a simple registration form. When submitting this registration form the user will have to upload a proposal as well. Once the user successfully submits the form, the relevant request will be sent to the reviewers to approve or reject. The user will be able to view the status of the request via “My Events” page.

The screenshot shows the 'Submit Research Paper' form on the ICAF website. The header is dark blue with the ICAF logo and navigation links: ICAF, All Events, My Events, Register Event, and Downloads. A user profile 'sdf' and a 'LogOut' link are in the top right. A dropdown menu is open under 'Register Event', showing 'Researcher Paper' and 'Workshops'. The form itself is titled 'Submit Research Paper' and contains the following fields:

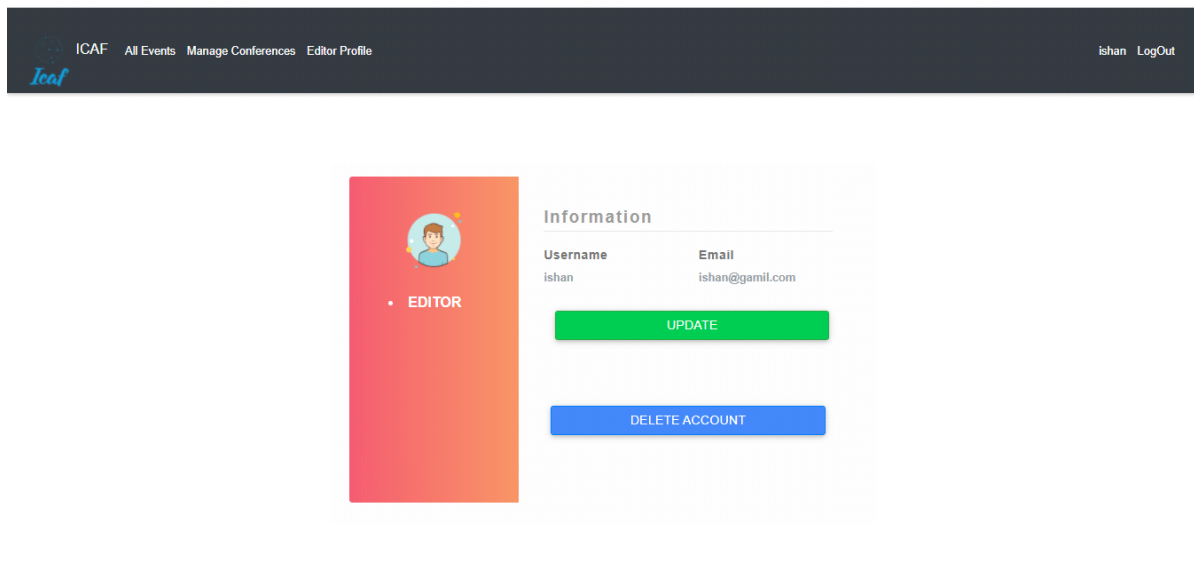

- Enter Research Paper Name**: A text input field with a person icon.
- Enter Researcher Email**: A text input field with an envelope icon.
- Enter Researcher Phone**: A text input field with a mobile phone icon.
- Enter Research Type**: A text input field with a gear icon.
- Brief Description About The Research**: A text area with a pencil icon.

Below the form fields is a file upload section with an 'Upload' button, a 'Choose file' button, and a 'Browse' button. At the bottom of the form is a blue 'ADD RESEARCH' button.

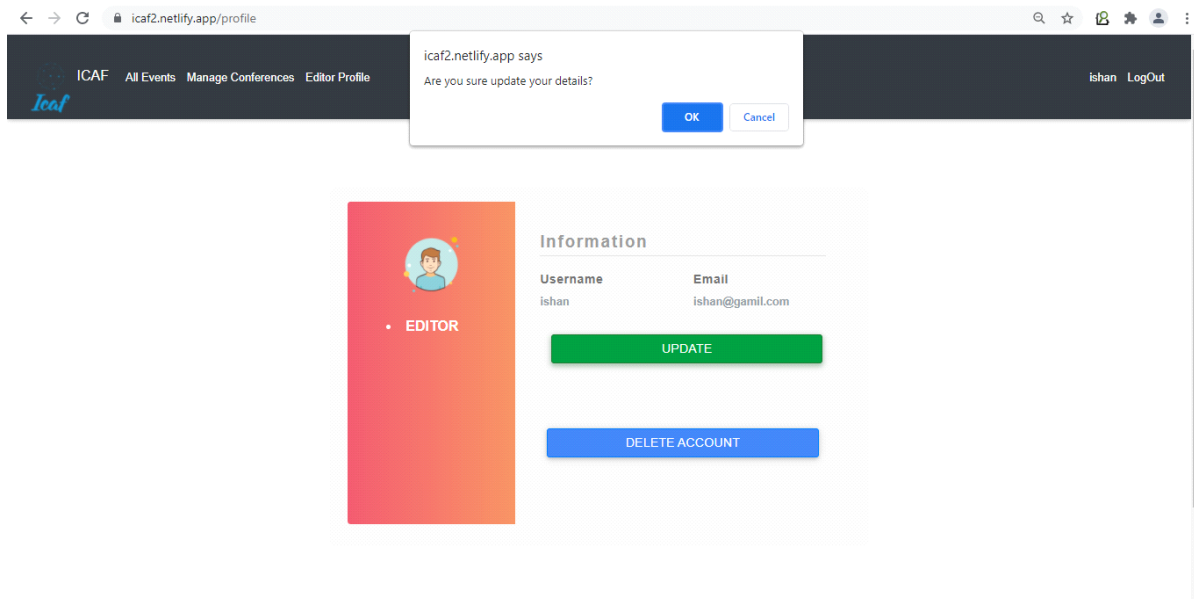

User Functionalities

User Profile.

After a successful login, the particular user can view their profile as below

Once they click UPDATE button, user will get a popup asking whether he/she is sure that they want to update the account. If the user clicks “ok”, Then will redirected to their update profile page

In the update profile Page, the user can view the data that they have included during their registration process. User can click the field that they want to update and change it and click the “UPDATE” Button. Then the user will see a message stating that “Updated Successfully” as below.

Then the updated data will be updated in the user profile.

Delete Account

If the user clicks the "DELETE ACCOUNT" button in the user profile, user will get a popup asking whether he/she is sure that they want to delete their account. If the user clicks "ok", then it will display a message "successfully Deleted" and user will be redirected to the Login Page.

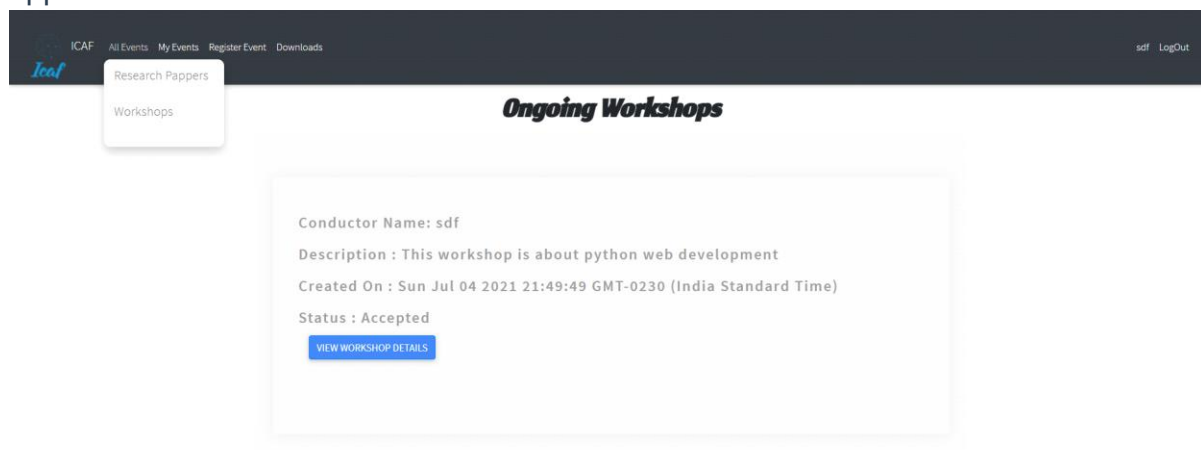

From the “My Events” page the user will be able to view all the events created by that user. All the necessary information along with the status of the request will be also shown.

All Events

From the all events page registered users as well as guests will be able to view all the approved events in the conference.

Reviewer Functionalities

Approve or Decline Events

From this page the reviewer will be able to accept or decline an event proposal request. The reviewer will be able to check all the pending events, declined events and approved events as well.

Sri Lanka Institute of Information Technology

Brief Description About The Conference

The International conference on application frameworks -2021 (ICAF2021) is organized by the Faculty of Computing of the Sri Lanka Institute of Information Technology (SLIIT) as an open forum for academics along with industry professionals to present the latest findings and research output and practical deployments in the Computer Science and Information Technology domains. Primary objective of the ICAC is to uplift the research culture and the quality of research done by Sri Lankan researchers. This conference will create a platform for national and international researchers to showcase their research output, networking opportunities to discuss innovative ideas, and initiate collaborative work

EDIT CONFERENCE

Admin Functionality

Dashboard

The admin dashboard will display the total number of events pending review, total number of events accepted and declined. With this dashboard the admin will be able to monitor the conference easily.
